

BREAKING: AFLDS Dr. Mark McDonald Publishes Letter on Masks and Child Abuse - MUST READ!

America's Frontline Doctors

Tue, Feb 15, 2022 at 7:04 PM

To:

Dear Friend,

My colleagues stood righteously beside me on the US Supreme Court steps in July 2020 because they identified MEDICAL TYRANNY encroaching upon Americans when the corrupt public health 'czars' insisted that there was no treatment for COVID. Almost two years later, the fight for freedom from tyranny continues, and AFLDS experts are still leading the way.

Dr. Mark McDonald, psychiatrist, original AFLDS physician, patriot, and critical thinker, reminds us [here](#), "Physicians are mandated reporters. When we witness or suspect child abuse, we are obligated both ethically and legally to report it to social services or the police. If a child shows up for therapy or medication treatment covered with cigarette burns, a doctor cannot ignore it.

Masks are no different.... they do cause significant and possibly permanent damage to a child's brain, retarding speech and language development, crippling social skills, and inciting a vicious cycle of emotional dysregulation leading to major depression, self-harm, and substance abuse. We would never allow someone to do this to our children directly, so why do we condone it through the vehicle of a face mask?"

Dr. McDonald continues, "Nearly two years later, I am done. I will no longer accept your ill-informed, foolish, immature rationalizations for the ongoing

abuse of your children. If you want me to treat your child, take the mask off his face... You, the parent, are not the victim. Your child is."

I commend Dr. McDonald for prioritizing his patient's health by emailing them the announcement below, and I TELL YOU the responsibility does not fall on physician's shoulders alone. You must protect your freedom. You must advocate for your, your children's, and your family's health. You must fight today while you still can. Once we each stand up for our own health, the medical tyranny ends.

Thank you and God Bless.

Simone Gold, MD, JD
Founder, America's Frontline Doctors

Dear Patient Name,

Effective immediately, all forms of child abuse will no longer be tolerated in my office. This includes masking children.

Just as I would never tolerate a parent beating their child or burning him with a cigarette lighter in my presence, I will not condone or allow minors to enter my office with their faces covered. My first ethical responsibility as a physician is to do no harm to my patients, and allowing children to mask their faces has caused and continues to cause tremendous harm to them physically, emotionally, psychologically, and developmentally. Any argument to the contrary is naive and irrational.

Over the past year, referrals to speech and language therapists have increased by between 25 and 300%, depending on locale. Younger children have suffered a 24% cognitive decline, along with a 22 IQ-point loss among infants, due to a combination of prolonged isolation, anti-social distancing, and universal masking of faces. This catastrophe is man-made and due entirely to the failings of adults.

Unfortunately, in my adult patient population, many have developed a fear addiction. I STRONGLY encourage them to remove facemasks whenever possible, including when visiting my office, as a necessary first step in overcoming this fear addiction. I am available and happy to provide support to any patient ready to move forward toward health and freedom from fear.

Let's agree to make 2022 the year for an individual and national recovery.

Mark McDonald, M.D.
11500 W Olympic Blvd Suite 426
Los Angeles, CA 90064
310-954-9565

All appointment changes and cancellations made less than two business days before a scheduled visit will be charged in full.

MARK MCDONALD, M.D.
Clinical Psychiatry & Medical-Legal Expert
